Check your print scale

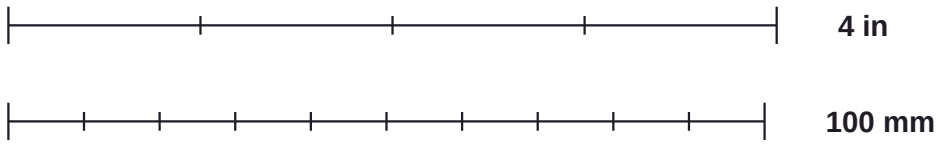
Use the same printer and paper settings as your stencil.

1 **Print at 100% or Actual Size**
Choose the matching paper size and turn off Fit to Page.

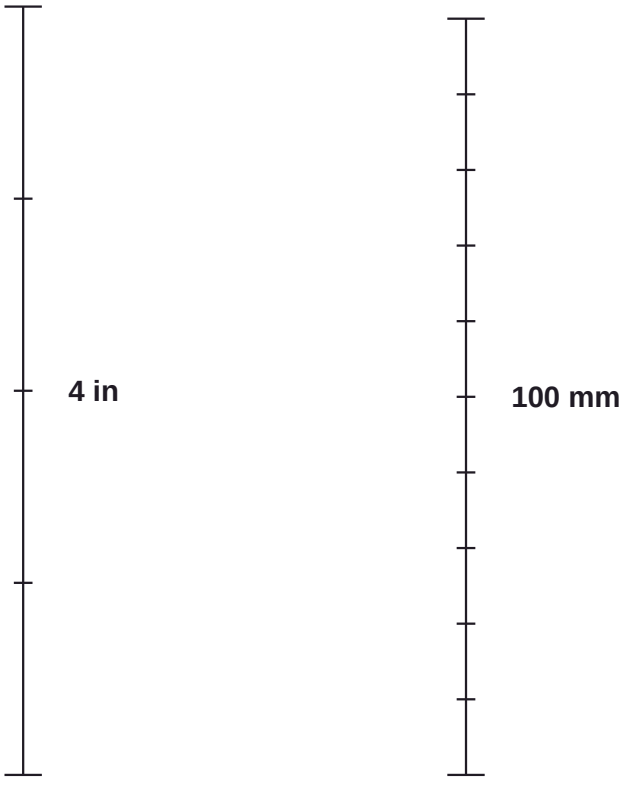
2 **Measure between the end ticks**
Measure one horizontal and one vertical reference with a ruler.

3 **Check any difference**
Verify the print settings, then use Calibrate printer in StencilFit.

Horizontal references



Vertical references



Measure from the center of one long end tick to the other.
